

RCU2

ADVANCED REMOTE CONTROL UNIT

- High-visibility graphic display
- Visual and acoustic alarm with zone indication*
- Remote keyboard for programming of all CEIA Walk-Through Metal Detectors
- Security level selectable through non-contact Freedom Card
- User-friendly Interface
- Connection to CEIA Walk-Through Metal Detectors via compact serial interface cable

* If provided by the connected Metal Detector

VISUAL ALARM WITH ZONE INDICATION

MODULE FOR REMOTE ALARM SIGNALLING AND PROGRAMMING OF CEIA WALK-THROUGH METAL DETECTORS

The RCU2 console is an optical and acoustic signalling terminal that allows programming and complete remote control of CEIA Walk-Through Metal Detectors.

Connection of the unit is via a serial cable to ensure maximum security. **Security Level adjustments can be carried out using the programming keys or CEIA's specially-designed, no-contact Freedom Card.**

The unit is housed in an elegant aluminium casing, powder-coated at high-temperature, which is extremely strong and stable; in accordance with industrial construction criteria.

TECHNICAL FEATURES

High visibility graphic display

Visual alarm with zone indication (for metal detectors with this feature)

Compatible programming for all CEIA Walk-Through Metal Detectors

PROGRAMMING via built-in keypad or via CEIA FreedomCard

EXTERNAL POWER SUPPLY: 12...36Vdc, 3W max. (from the metal detector)

CONNECTION TO WALK-THROUGH METAL DETECTORS via serial interface (4800–57600 baud); maximum connecting cable length: 330 ft (100m)

DIMENSIONS: 8.7" x 5.5" x 1.4" (220 x 140 x 35mm)

WEIGHT: 1.5 lbs (680g)

PROTECTION DEGREE: IP32

SERVICE RS232 SERIAL PORT for connection of a PC to the console and display of Metal Detector signals using the CEIA MDScope technical assistance software

TYPICAL APPLICATION

CONTROLS AND INDICATORS

1	DISPLAY	
2	GREEN POWER-ON INDICATOR	The Metal Detector is powered by the AC power line
3	YELLOW BATTERY OPERATION INDICATOR	The Metal Detector is powered by the built-in battery
4	RED ALARM INDICATOR	Metal Detector alarm
5	FREEDOM CARD SENSITIVE AREA	Place the card on this area to set the desired Security Level
6	KEYPAD	Remote Metal Detector keypad
7	POWER SOCKET	
8	SERIAL PORT FOR METAL DETECTOR CONNECTION	
9	SERIAL PORT FOR COMPUTER CONNECTION	

SIGNALS DURING OPERATION

- DURING NORMAL FUNCTIONING THE RCU2 REPEATS THE CURRENT MESSAGE OF THE METAL DETECTOR DISPLAY ON THE UPPER PART OF ITS DISPLAY.
- A DIAGRAM OF THE METAL DETECTOR ARCHWAY SHOWS THE METAL DETECTOR STATE.
- IN CASE OF ALARM, THE ALARM INDICATOR LIGHTS UP AND THE BUILT-IN BUZZER IS ACTIVATED.

TRANSIT IN PROGRESS

TRANSIT WITH ZONE ALARM INDICATION

TRANSIT WITH ALARM (MD WITHOUT ZONE INDICATION)
